- 25X1
1. The railroad car factory at Rankovicevo is engaged only in the assembly and repair of railway freight trucks. Most of the major parts required for the construction of new trucks are obtained from other factories in Yugoslavia.
  2. Output of new railway trucks is from 15 to 20 trucks per month, which is far below the potential capacity of the factory.
  3. At present there are approximately 2,200 workers employed in the factory, working in two eight-hour shifts.
  4. Plans have been drawn up for the construction of an underground aircraft factory in the vicinity of the Rankovicevo factory.
